WORKING EXPERIENCE

I.N.A.I.L. office in Via Santuario regina degli apostoli 33, Roma February 2009 – Now

StmItalia C&O, Via Elio Chianesi 134 , Roma

Full stack Developer

Evolution and maintenance of legacy applications for RBAC-type identity and access management written in ASP and C#. Collection of requirements, analysis, planning, development and testing of software solutions for the management of internal services provided by the identity management area. All the software was created with Visual Studio 2013, Visual Studio 2019, Sql Server 2012 and Sql Server 2018. Support for development teams in the planning phase of the integration with the profiling system.

Banca Fideuram office in Piazzale Douhet 31, Roma February 2008 - February 2009

StmItalia C&O, Via Elio Chianesi 134 , Roma

Software Developer

Evolution and maintenance of intranet web applications for management and profiling. Creation and maintenance of programs for the management of data flows between different Active Directory and various legacy environments.

Poste italiane office in Viale Europa 12, Roma January 2007 - July 2007

Software Developer

Creation and maintenance of the applications present on the intranet of the main headquarters. On the various projects I held the role of analyst and programmer in a team of six people.

Expotel s.p.a. , Via Carlo Pisacane 7, Pomezia (Rm) January 2006 - January 2007

Software Developer

Creation and maintenance of the Content Management System (CMS) of the www.inps.it portal and other portals in institution's intranet. During the develop I covered various roles, from programmer to co-analyst.
